1

Solar Consultation & Design

Questions | Design | Site Assessment

Stage 1
Complete

- ▶ Our solar estimators will answer your questions and work with you on a custom-tailored design that suits your property and your needs the best.
- ▶ During this stage, we will perform a physical and remote site assessment to determine exact measurements.

2

Installation of Your Solar System

Crew Lead Introduction | Supplies Arrive | Install

Stage 2
Complete

- ▶ On the first day of installation, **80% of the contract price is due.**
- ▶ Depending on system size, the expected completion date - *not including inspections* - is about 2-3 days after start date.
- ▶ The installation crew will arrive between 8-9:00 AM.

3

Inspection of Your System

Building | Electrical | Final 20% Payment

****We'll call you to confirm inspections in the morning** !**

Stage 3 Complete

****Building & Electrical are sometimes same inspector** !**

- ▶ **Electrical Inspector** will need access to your electrical panel. *You will need to be home.*
- ▶ The **building inspector** will need access to your property. *You will need to be home.*
- ▶ After passed inspections, your estimator will reach out to schedule a time to give you a walk-through of your new solar system. **20% of the installation cost will be due.**

4

After Your Inspections

Utility NET Meter | Online Solar Monitoring

Stage 4 Complete

- ▶ After building and electrical inspections, your utility will schedule a time with you by email.
 - ▶ *May take 1-4 weeks until utility installs new meter*
- ▶ Once you receive a bidirectional Net Energy Meter, you'll be producing solar power and be able to view your online solar monitoring. **Turn ON solar breakers**

5

Produce Power & Energy Trust or Oregon

ETO Verify (OR only) | Producing Power | Monitoring 100%

Stage 5 Complete

- ▶ After your new NET meter is installed, we will request the Energy Trust of Oregon to send a Verifier to verify the installed solar according to ETO guidelines. **For this, be ready to;**
 - ▶ Be at the property (ETO Verifier will schedule a time with you to meet)
 - ▶ Will need to show: Solar Manual **and** Solar Monitoring
- ▶ This inspection is in order to have the Utility/ETO cash-rebate released to Sunbridge Solar

Things to Keep in Mind

Monitoring | Continual Support by Sunbridge Solar

- ▶ **Monitoring:** During installation, monitoring equipment will be initially installed. However, we may need to finalize networking **soon after** your new NET meter is installed.
 - ▶ May require our Tech Support to visit your property
- ▶ **Continual Support by Sunbridge Solar:** We're here for you as your solar experts and will absolutely honor the solar manufacturer warranties and our own craftsman warranty.

Thank You for Choosing Sunbridge Solar!
